WHO WE ARE

Creator of the world's first fully functional containerised gym, BeaverFit is the leading global manufacturer of outdoor fitness equipment and training solutions. With a commitment to product excellence through cutting edge design and manufacturing processes, BeaverFit create innovative fitness equipment that provides a wide range of human performance training functionalities with industry leading durability for use in any outdoor environment.

Since 2010, BeaverFit has been the leading supplier of container gyms and outdoor fitness solutions to the U.S. and UK militaries, and continues to innovate and enhance both indoor and outdoor facilities for corporations, commercial gyms, universities, sports clubs and individual users.

Our solutions are manufactured to the highest of standards, exceeding all expectations. This methodology is at the heart of what we do, and represents the very foundation of which the company has been built.

"We create what does not yet exist"

Tom Beaver
Managing Director
BeaverFit Ltd

PORTABLE

COMMERCIAL FITNESS EQUIPMENT

THE GYM BOX (SINGLE RACK) is a fully integrated, multi-use storage box, made up of a foldaway Garage Rack and storage compartment to store the equipment necessary to create a world-class, individual training solution.

The Gym Box converts into a portable pull-up rack and olympic lifting stand - it has room to carry kettlebells, bodyweight straps, rings and a variety of other fitness accessories. The TGB-SR fits easily in the back of an SUV and can be carried by two people. It is assembled with ease in less than 5 minutes.

THE GYM BOX (DUAL RACK) has four station areas all can be used as a pull-up stand or olympic lifting station.

The Dual Rack also has two configurations, one for smaller spaces and one for larger - all rigging for both versions come inside the boxes. The Dual Rack is easily transportable and assembled in just under 15 minutes.

DETAILS

- Squat Rack + Pull-Up Bar
- Delivery Available
- Optional Attachments Available
- Custom Colours Available

KEY BENEFITS

- Group Training Opportunities
- Quick + Easy Assembly
- Versatile + Portable
- Integrated + Lockable Storage
- Ultra-Stable Design

SCAN ME TO SEE
THE FULL SOLUTION

BeaverFit originated from a family of Steel Fabricators, specialising in the industry since 1947.

In 2006, Tom Beaver built a robust and innovative rig to train for the Arch challenge, made entirely from materials used by the family business.

Tom Beaver successfully introduced his product of excellence to the military. Thus, the birth of BeaverFit and further development of innovative products and fitness solutions - dominating the industry since 2010.

Co-founders, Tom and Jim Beaver further developed the product line to introduce the worlds first ever container gym solution - the FOB Locker. Since 2012, over 500 of these solutions have been deployed around the UK and Europe.

In 2015, the industry saw the introduction of BeaverFit Special Operations Equipment (SOE), a sister company to BeaverFit Ltd, supplying sought after and unique Special Operations Equipment, from Training Towers through to Live Fire Shoot Houses.

BeaverFit UK joined forces with two veterans from the USA, forming our sister company BeaverFit North America LLC and imminently winning their first contract with the U.S Marine Corps to supply 300 FOB Lockers.

**12+ YEARS
IN BUSINESS**

BeaverFit is a world leader in the design, manufacture and distribution of training equipment. With over 12 years in business and a proven track record of product testing by the world's most influential corporations and elite military units.
