

# SHREWSBURY FOOTBALL CLUB SHELTER SOLUTION

Ex-firefighter and Cross Fit Shropshire owner, Gray Carless, approached BeaverFit with a concept to introduce an outdoor fitness offering to a local football team.

BeaverFit partnered with Shrewsbury Town in the Community to deliver a multi-functional, custom branded outdoor fitness solution. The bespoke Shelter Solution comprised of two 20ft Performance Lockers, with integrated rigging and storage. Alongside this, we also added roller shutter doors for easy access.

Demonstrating the advanced capabilities of our design engineers, we offered a variety of elements, such as; a Rope Climb Tower, Integrated Lockable Storage, Folding Squat Racks and an overhead shelter for protection from the elements.

**“BEAVERFIT’S SHELTER SOLUTION HAS ADDED A NEW LEASE OF LIFE TO AN OTHERWISE UNUSED SPACE. IT HAS ALSO ALLOWED MY TEAM TO TRAIN SMALL GROUPS AND LARGE SPORTS CLUBS.”**

**Gray Carless**

Founder, Dam Strong Gym

## BENEFITS + FEATURES

- ❖ ISO container solution with 5mm integrated steel rigging
