

# UNI OF EDINBURGH

## BESPOKE CONTAINER GYM

BeaverFit were sought after to deliver a bespoke outdoor fitness facility for Peffermill Playing Fields at the University of Edinburgh.

It's a necessity for Universities and Academies alike to upgrade their outdoor fitness facilities. This not only benefits the students but also offers opportunities to host other sports athletes and sporting events.

The BeaverFit team designed, delivered and installed a bespoke outdoor fitness solution made up of three 10ft container gyms/performance lockers, that were desired to enhance the sports centres pre-existing facilities.

The three-piece solution had to be both functionally and aesthetically advanced, and custom branded to suit the University of Edinburgh' Red and White colour palette. Alongside this, they required a solution that was easily manoeuvrable, and offered both external rigging and internal storage.

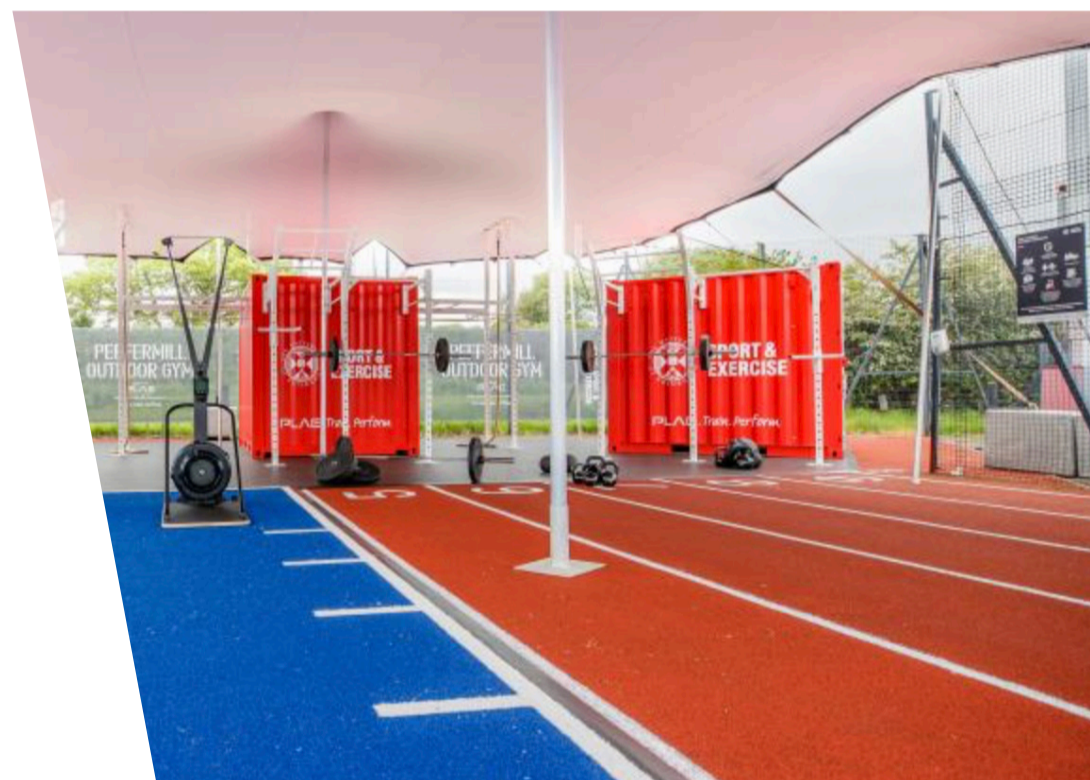

### BENEFITS + FEATURES

- ✔ ISO container solution with 5mm integrated steel rigging
- ✔ Overhead protection from the elements
- ✔ Easy to relocate
- ✔ BeaverFit patented manufacturing
- ✔ Galvanised + weatherproofed

**“WE COULDN'T BE MORE THRILLED ABOUT IT, AND OUR STUDENTS WILL BE FITTER THAN EVER. THE FUTURE IS BEAVERFIT.”**

**Jim Aitken MBE**

Director of Sport, University of Edinburgh
