

WHO DARES GYMS

20FT PERFORMANCE LOCKER

An Ex-SBS Soldier approached BeaverFit with a vision of opening a Miami Beach style outdoor fitness facility on Bournemouth beach. They wanted the space to host functional fitness events and offer a safe space for ex-military and servicemen to be able to continue their training in a civilised environment.

The skilled design engineers at BeaverFit designed a concept, fit for purpose. A 20FT Performance Locker with integrated external rigging, in the colour SAND to support both the Military and beach aesthetic - complimented by multiple Garage Racks and integrated storage within the container. Our team of dedicated manufacturers and install operatives, brought the vision to life in May 2021.

Throughout the summer, WDG ran multiple functional fitness style events, endorsed by celebrities, charities and likeminded business such as Grenade, REORG and BeaverFit.

“BEAVERFIT ALLOWED ME TO BRING MY VISION TO LIFE. I’VE ALWAYS KNOWN OF BEAVERFIT THROUGH THEIR STANCE WITHIN THE MILITARY, SO THIS PROJECT HAD TO BE BEAVERFIT. FROM DESIGN THROUGH TO DELIVERY, THE EXECUTION WAS SEAMLESS AND I AM LOOKING FORWARD TO WORKING WITH THEM ON ADVANCING MY FACILITIES FURTHER.”

Leo Walker

Founder / CEO, Who Dares Gyms

BENEFITS + FEATURES

- Internal storage
- Galvanised + weatherproofed
- Multiple stations for group training
