

WIRRAL COLLEGE

10FT CONTAINER GYM

Wirral Met College wanted to completely revamp and utilise their unused space with our BeaverFit 10FT Container Gym solutions. They required a multi-functional training area that maximised the floor space for their students as well as offering an integrated and lockable storage facility to house their equipment in an outdoor, but secure location.

The solution to Wirral Met's issues was to create a bespoke, custom branded facility that could offer outdoor training and classes in an open area space with multi-functional zones.

The area space comprised of a 10ft Container Gym solution housed integrated internal and external rigs and racks, all custom branded to best represent the clients desired design.

Featuring expertly crafted outdoor gym equipment from BeaverFit and Physical Company, Wirral Met have the ability to offer their students an enhanced training area space that instantly upgrades their offering.

BENEFITS + FEATURES

- ✔ Multiple users
- ✔ Freestanding
- ✔ Integrated, lockable storage
- ✔ Superior weatherproofing
- ✔ Custom branded

"THE EQUIPMENT IS EVEN BETTER THAN I EXPECTED AND IS A GREAT ADDITION TO OUR OUTDOOR SPACE. THE STUDENTS ARE TAKING THEIR FITNESS REALLY SERIOUSLY. THE TEAM THAT CAME TO DELIVER AND ERECT WERE AMAZING AND DID A FABULOUS JOB."

Jayne Bayley

Campus Manager, Wirral Met College
